REQUIRE SEREBRIO-CERTIFIED VENDORS

SEREBRIO – The Global Safety Infrastructure for the Human Brain

Your Vendors Handle Trauma.
Do You Regulate It?

The Risk

Your platforms rely on people who:

- see violence
- process abuse
- review exploitation
- handle crisis

If their brains collapse:

- errors increase
- whistleblowers appear
- media follows
- ESG risk explodes

Yet today there is no standard governing this exposure.
